

RELOCAL Online Policy Webinar 1

"PERCEPTIONS OF SPATIAL INJUSTICE"

This is the first in a series of RELOCAL Policy Webinars focussing on one of the key topics addressed in the RELOCAL project, i.e. perceptions of spatial injustices in various European localities. Three out of 33 [RELOCAL case studies](#) will be presented to shed light on the question of how understanding perceptions of spatial injustices may provide a key for policies to solving them. The cases indeed will illustrate some potential policy responses revolving around aspects such as accessibility, digitalization, migration and community building. The cases and wider topic will be commented upon by two EU-level representatives.

Date 23rd November 2020

Time 13:00 – 15:00 (CET)

Place [MS Teams](#)*

**This is a link to the livestream. Presenters will be directly invited.*

Upon entering the meeting, you are allowing your video and audio to be livestreamed and recorded.
